

# Research Methods in Sports Science for Interdisciplinary Approaches

Summer School Research  
Sun 20<sup>th</sup> – Sat 26<sup>th</sup> of August 2023  
German Sport University Cologne

Deutsche  
Sporthochschule Köln  
German Sport University Cologne

## Registration support

*This document is designed to guide you to successfully register for the upcoming GSU Summer School Research 2023. It provides you with an overview of all forms and information about your study and research background that need to be submitted to enable the summer school to be a ground-breaking scientific event for your current and future interdisciplinary research in sports science.*

### I. General information

For a successful registration and/or scholarship application, please submit the following forms as a single PDF document, completely filled in, each with place, date and your signature:

- Registration form;
- Declaration of consent for data processing;
- Curriculum vitae form;
- Motivation letter form.

At a later date, submit your registration for the summer school workshops:

- Workshop registration form.

Please send your application by e-mail to:

*International Summer Schools/Conferences*

German Sport University Cologne  
Office of Academic Planning and Control  
Department for Research and Academic Youth  
Am Sportpark Müngersdorf 6, 50933 Köln  
[summerschoolresearch@dshs-koeln.de](mailto:summerschoolresearch@dshs-koeln.de)

### II. Registration form

Category: *University studies/higher education*

The summer school is targeted at Master students, PhD candidates and early career postdoctoral researchers. Accordingly, you are asked here to provide information on your current and/or completed studies as well as on the higher education degrees you have already taken and/or you are currently pursuing – and this all starting with your Master's programme.

Category: *Scholarship application*

If you want to apply for a scholarship to attend the Summer School Research 2023, please let us know here. The only difference between applying for a scholarship and simply registering to participate in the summer school is that, in addition to your motivation letter, you must provide infor-

mation on the reasons why you wish to apply for a scholarship. The scholarship usually includes the remission of the participation fee and, if applicable, a travelling allowance and free accommodation in the GSU guest house.

#### Category: Accommodation

For the time of the summer school (Sun 20th to Sat 26th of August 2023) we offer accommodation in the GSU guest house located directly on our campus. Please let us know here if you need accommodation. Please remember that the participation fee **does not** cover accommodation costs. For a remission of the accommodation costs, which will be incurred at the GSU guest house, you must successfully apply for a scholarship of our summer school.

### III. Declaration of consent for data processing

The German Sport University Cologne would like to collect your personal data needed for the registration process for the Summer School Research. For this purpose, we will need your consent by your signature.

### IV. Curriculum vitae form

The Curriculum vitae form is intended to provide us with a good and quick overview of your academic qualifications and research achievements. Please be aware that you **do not need** to be able to indicate research information in all categories in order to participate in the summer school and/or successfully apply for a scholarship.

### V. Motivation letter form

Anyone wishing to register for the summer school must write a letter of motivation. If you only want to register for participation, please choose the Motivation letter form **without scholarship application**. If you want to apply for a scholarship as well, please choose the Motivation letter form **with scholarship application**.

As a motivation letter, all of you have to write at least half a page and no more than a full page (at least 1,200 to 2,400 characters without spaces). Scholarship applicants must additionally provide reasons why they need a scholarship; such as substantive reasons (e.g., the excellence of your interdisciplinary research) and, if applicable, practical reasons (e.g., lack of funding).

Please make sure that you adhere exactly to the task in the form and do not exceed the space respectively the number of characters specified here.

### VI. Workshop registration form

#### Category: Workshop participation

At a later stage of the summer school preparation process, we will ask all registered participants to register for the workshops of our event. As a participant of the summer school you will attend a total of three workshops: one workshop with four timeslots (workshop group A), one with three timeslots (workshop group B) and one with one timeslot (workshop group C). From each workshop group (A, B, and C) you can choose one workshop as a favourite and up to two alternatives.
