

Timetable – the semester schedule for the Master’s degrees

Getting started

Once you have decided upon a Master’s degree course, you can *easily* compile a model semester timetable by following the **listed instructions**:

- 1) The **homepage** ([Study plans](#)) lists all curricula of the individual master’s degree courses. **Select the latest issue of the curriculum for the master’s degree that you are interested in.**
- 2) Consider for **which semester you want to compile an exemplary timetable**. Since the Master’s degree courses only enrol once a year (winter term) the following applies:

- Semester (FS): 1 and 3:
⇒ Winter semester
- Semester (FS): 2 and 4:
⇒ Summer semester

SMA 3	1/2	Psychological Aspects of Sport Management
	1	3.1 Psychological Aspects of Sport Management (SE)
	2	3.2 Psychological Study in Sport Management (SE)

Find the modules for the corresponding semester and note the module descriptions.

- 3) Click on **LSF** (Web application for teaching, studies and research) at:
www.dshs-koeln.de/english/studying-structure/other-topics/course-catalogueslsf
(link on the right side)

LSF access

Two servers offer access to LSF. Either may be used.

➤ Server 1

➤ Server 2

- 4) You **do not have to log in**, in order to use the course catalogue in LSF!

- 5) Select whether you want to list the offered courses for a (current or past) winter or summer semester. You can change the semester in the upper navigation bar.

You are here: Home → Courses

Course Overview

- 7) Select the **chosen Master’s degree course**. Here you have a complete course overview for the respective Master’s degree course.
- 8) By using the prior **selected module descriptions** (from the curriculum), you can compile your individual **semester timetable**.
