With more than 6,000 students from 93 countries, the German Sport University Cologne (GSU) is an outstanding university location both nationally and internationally. The GSU stands for proven research with a high volume of third-party funding and state-of-the-art, research-led as well as international teaching in all social and life science sub-disciplines of sport and sports science, supported by administration and central operating units with their services.

The following position is to be filled at the Institute of Movement Therapy and Movement-oriented Prevention and Rehabilitation by January 1, 2024:

**W2-Professorship for Prevention Research with a focus on Workplace Health Promotion (female/male/diverse)**

for a period of five (5) years in a private-law employment relationship based on salary grade W2.

We are looking for an internationally recognized personality who has special expertise in developing, testing and evaluating target group-specific, lifestyle-influencing and behavior-as well as condition-modifying prevention concepts with special consideration of the workplace context.

It is her/his task to participate in teaching in the Bachelor and Master programs (especially in the B.Sc. Sport and Health in Prevention and Therapy as well as in the M.A. Rehabilitation, Prevention and Health Management) at GSU and to contribute to the conceptual development of the programs. The position entails a teaching obligation of 9 SWS.

**Applicants must document:**

- relevant international publications
- recognizable transfer of scientific findings into practice
- very good knowledge of qualitative and/or quantitative methods
- successful acquisition of third-party funds, especially competitive ones
- positively evaluated teaching in the context of the professorship
- doctorate and habilitation or habilitation-equivalent achievements in the fields of sports sciences, health sciences or related disciplines
- experience in multidisciplinary and multiprofessional collaboration

**Desirable are**

- Project experience in cooperation with social insurance agencies, especially with statutory health insurers in the field of exercise-related prevention
- Networking in the health care system
- Expertise in the implementation of digital technologies
- Willingness to cooperate with institutes of the GSU that are related to the subject area
- Competences in the field of staff management and staff development

The German Sport University Cologne strives to increase the proportion of female staff and faculty and expressly encourages applications from qualified women. Women will be considered preferentially in accordance with the State Equality Act.

Applications from persons with severe disabilities or equivalent status are welcome. They will be given preferential treatment within the framework of the statutory provisions.

The German Sport University Cologne supports its employees in balancing family and career.

Please send your application with the usual documents, in particular a description of your professional career, a list of publications and a selection of important publications, by 30.11.2023 in one coherent PDF file exclusively to bewerbung@dshs-koeln.de, quoting the reference number 2336-Prof-BGF.
